LEGISLATORS ON PLEASURE TRIP

Senators and Representatives with their Friends Arrive by Special Train to Spend Two Days in Town and on Field.

Pennsylvania's legislators arrived in Gettysburg this afternoon by special and regular trains for a two days' visit of the town and battlefield. With them many brought their wives and other members of their families, the whole party numbering about one hundred and twenty five.

The special arrived at half past one and was met by the Gettysburg College band and a large number of the students who gave their yells and greeted the lawmakers in an enthusiastic way, the welcome being much appreciated by the visitors. A number missed the special, which left Harrisburg before noon, and came over on the regular arriving here at 1.45. One even missed the regular and started around by way of Hanover and York rather than miss the trip entirely.

The party is being piloted by Hon. James C. Cole, representative from this county, and went to the Eagle for dinner immediately after their arrival. The First Day's Fight was taken in during the afternoon, the fields of the Second and Third Days being scheduled for Friday.

No special form of entertainment has been provided for this evening and the visitors from the Capitol will be allowed to provide their own means of diversion. They will leave by special train at four o'clock Friday afternoon. The Senators and Representatives composing the party are:

THE REVIVAL

The congregation at the United Brethren church was greatly impressed by Dr. Rock's first sermon of the series on Wednesday evening. He spoke of the prevailing indifference and spiritual "ease in Zion" and lack of travail in the prayer life of so many and with tears, in a spirit of love, he pleaded that Christians might realize what an awful thing it is for a soul to be lost; and feel and act accordingly. Dr. Rock believes in a heroic type of Christian life and loves to talk to men. The women do their part and do it grandly but they can not do the part that God expects the men to do. Every man is invited. Services begin at 7.30 each evening. G. W. Sherrick.

MAKING IMPROVEMENTS

Extensive changes are being made to the Warner building and Pastime Theatre on Baltimore street. The room now used as a lobby will be divided and the north side used for a store room. The remainder will be used as the lobby for the theatre, a hallway running back along the south side of the present front room. The walls of the picture show room are being painted red and green and the ceiling will be papered.

FINDS WARRANT OF NO ACCOUNT

Fairfield Constable Journeys to Waynesboro to Make Arrest Only to Find that Prosecutor had Died Some Time Previous.

Constable John Reese, of Fairfield, armed with a warrant for the arrest of William Barnes, journeyed to Waynesboro this week for his man only to return home with the information that the prosecutor who had laid information against him had died some time since and the case was no more.

Peter Carbaugh who had brought suit against Barnes alleged that the defendant had pointed a weapon at him and the warrant was issued and placed in the hands of Constable Reese. Barnes in the meantime was serving a sentence in the Huntingdon Reformatory and no effort was made to serve the paper until his release.

Recently he was given his freedom from the state institution and Constable Reese, ignorant of the death of the prosecutor, Peter Carbaugh started for the Old Forge, near Waynesboro, to place Barnes under arrest. When he reached the Franklin County town he was apprised of the death of Carbaugh and, as the case fell without the prosecutor and principal witness for the Commonwealth, the warrant became useless and nothing was left for the Fairfield official but to return home.

HOUSE SAVED

That the home of James R. Neely in Huntington township, was not destroyed by fire on Sunday afternoon was due to the timely arrival of John Gibb and J. Harvey Neely. When they reached the farm about 2 o'clock the kitchen was on fire at the fire doors at the chimney and the flames were rapidly spreading. Fortunately a tank of water stood outside the kitchen door and a liberal use of the contents extinguished the blaze. Mr. and Mrs. Neely were spending the day with Earl Haskell and family and their home would have been in ashes had the two men not arrived when they did.

FRESH OUTBREAK OF CHICKEN POX

Half Dozen New Cases Reported after a Week's Cessation and it was Believed Epidemic was at an End. Half Hundred Patients.

Six new cases of chicken pox appeared in town on Wednesday afternoon. No outbreak had been reported for a week and local health authorities had believed the epidemic at an end. Just what has caused the new development is not known.

For a week or more not a case was reported and as many of the quarantines established since the first case was reported had expired it was believed that the siege would soon be at an end. Suddenly, however, the half dozen new cases appeared. Prof. Burgoon, supervising principal of the local schools, stated this morning that at the present time there are between forty and fifty pupils kept from the schools of town either because they, or some member of the family, have the disease.

There have been half a hundred cases of chicken pox in the town since the epidemic first made its appearance and it is believed the number would have been materially lower had people been more prompt in making known the presence of the ailment or more careful in keeping their children away from others who had the disease.

The increase amounts to over 1,000 miles of highway. The changes of route have been made by sub-committees of the house and senate roads committees, which have received and investigated numerous suggestions for changes from every section of the state and it is believed that the bill as amended will be satisfactory to everyone. It is the plan to pass it in the senate and send it to the house next week.

DEMOCRATS WORK ON INCOME TAX

Bill Presented to Ways and Means Committee.

BASED ON COURT DECISION

Leaders Believe They Have Framed a Bill to Avert Any Constitutional Delay.

Washington, April 6.—The irresistible impulse of the triumphant Democrats to follow their widespread success at the polls was indicated when an income tax bill was presented to the Democratic majority of the ways and means committee by Congressman Cordell Hull, of Tennessee, a member of the committee, who has made a world wide study of the workings of the income tax principle.

It is understood that the Democratic leaders have agreed to report the bill favorably as soon as possible.

This will be the first departure from the legislative program agreed upon by the all-powerful Democratic caucus only two days ago.

Mr. Hull's bill is based somewhat on the principle just settled by the supreme court in the corporate tax case and applies to individuals engaged in business, which, of course, includes all persons following gainful pursuits, the idea being that the government may tax private incomes for the privilege of doing business.

The Democrats believe that they have now found a way to work out an income tax law without waiting for an amendment to the constitution and thus lay the foundation for sweeping reductions in the tariff, either in this extra session or the regular session next winter.

It is felt by the Democratic leaders in the house that the Republican insurgents in the senate may be counted on to assist in passing an income tax bill along these lines.

Senate Insurgents Win.

Senator Cullom, of Illinois, chairman of the Republican caucus, announced the names of the three committee members authorized to appoint by the Republican caucus.

The committee on committees, which will also be the committee to distribute patronage, will be composed of the following Republican senators: Gallinger, of New Hampshire; Lodge, of Massachusetts; Warren, of Wyoming; Penrose, of Pennsylvania; Heyburn, of Idaho; Smoot, of Utah; La Follette, of Wisconsin; Bourne, of Oregon; Cummins, of Iowa; Bradley, of Kentucky, and Bristow, of Kansas.

The steering committee, which will direct legislation, will be: Cullom, of Illinois; Gallinger, of New Hampshire; Clark, of Wyoming; Nelson, of Minnesota; Gable, of South Dakota; Brandegee, of Connecticut; William Alden Smith, of Michigan; Borah, of Idaho; Brown, of Nebraska; Briggs, of New Jersey, and Jones, of Washington.

The insurgent Republicans will have four members on the committee on committees and two on the steering committee. The insurgents on the former committee are La Follette, Bourne, Cummins and Bristow. The progressives were most generously anticipated, even more than had been anticipated. The appointments indicate clearly the strength of the position which the insurgents hold in the new senate.

The insurgents placed themselves on record in favor of the announced program of the house Democratic majority for the admission of both New Mexico and Arizona to statehood through the approval of the constitution adopted by both territories, at the special session of congress. Senator Norris Brown, of Nebraska, presented a joint resolution providing for the approval of the constitutions of both territories and their admission as states.

RECEIVER FOR CHURCH

Catholic Officers Refuse to Submit to Authority of Archbishop.

Pottsville, Pa., April 6.—Court appointed a receiver for St. George's Catholic church, of Shenandoah, a parish which has 8000 members and is the largest congregation in this section.

The receivership is the result of an equity suit brought by the late Archbishop Ryan, of Philadelphia, to compel the officers of St. George's to submit to his authority.

The congregation took the position that they would recognize the archbishop and the priest appointed by him in all spiritual affairs, but they claimed that the law of Pennsylvania gives every congregation the right to manage its own financial affairs.

Prayed for Woman She Killed.

Fort Worth, Tex., April 6.—Women neighbors and friends testified that Mrs. Lizzie Brooks, who is on trial for killing Mrs. Mary Binford Jan. 16, had prayed every day for two years that the woman she killed might "reform" and get a position in another city. Intimacy of Mrs. Binford with the husband of the slayer is said to have caused the shooting. Miss Ida Stephens, a deaconess in the First Methodist church, said she had knelt in prayer with Mrs. Brooks, praying that Mrs. Binford might be a better woman.

To Name House Employees.

Washington, April 6.—A committee to control the appointment of the employees of the house was named as follows: James T. Lloyd, Missouri, chairman; Benjamin G. Humphreys, Mississippi; and Martin D. Foster, Illinois.

Chinese Merchant Slain.

Winnipeg, Man., April 6.—Toy Chang, a prominent Chinese merchant, was found murdered in his bed. There was a bullet hole in his stomach.

HITS PROHIBITION BLOW

Alabama Legislature Adopts a County Local Option Law.

Montgomery, Ala., April 6.—State-wide prohibition in Alabama was given a knockout blow when both branches of the legislature adopted the Smith liquor regulation bill.

This provides that 45 per cent of the voters of a county may petition for an election to determine whether liquor shall be sold in that county, either by saloons, dispensary or otherwise. Each county is thereby given full power to regulate its liquor traffic.

For \$8,650,000 Bridge.

Ottawa, Ont., April 6.—The contract for the superstructure of the Quebec bridge across the St. Lawrence river was awarded by the Dominion government to the St. Lawrence Bridge company, an amalgamation of the Dominion Bridge company, of Montreal, and the Canadian Bridge company, of Walkerville. The estimated cost of the bridge is \$8,650,000.

Death in Bogus Whisky.

Reading, Pa., April 6.—Stephen Ackerman and his family moved from this city to Amityville, this county. Ackerman found a bottle in the cellar of his new home which contained cressoline. Thinking it was whisky, he drank some of it and died shortly afterward in intense agony. He was forty years of age and leaves a wife and three children.

TELLS OF LOANING WARSHIP PLANS

Knox and Meyer Defend Action In Report to Senate.

Washington, April 6.—In compliance with a resolution adopted by the senate last session, calling for information concerning the part played by the state and navy departments in obtaining from the Argentine Republic contracts for the building of two battleships in private American yards, replies were sent to the senate by Secretary Knox and Secretary Meyer.

Both of these cabinet officials defended their course in permitting the use in the foreign ships of confidential plans of the dreadnought type of vessels now being built for this government and secret devices embraced in armament.

Secretary of State Knox, in his answer, said that the action of administration officials was in accord with the policy of the act of 1909, under which the department of state was reorganized and the purpose of which was the extension of American trade relations. Referring to the voluminous correspondence between the two governments, Mr. Knox said it had not been deemed compatible with the public interest to furnish it.

Secretary Meyer's reply says that the patents on the plans to be used in this connection are not the exclusive property of the United States. Further he declares that this country will benefit greatly by the exchange of naval construction information with other countries.

The two Argentine battleships, that are now being built at private ship yards here, are partly from the plans which this government has adopted for the construction of the new battleships New York and Texas.

For the information furnished the United States reserved the right to purchase the two vessels from Argentina, in case they were to be sold at any time. Furthermore, Argentina was to consider the plans confidential.

LORIMER ELECTED BY BRIBE FUND

Story of Harvester Man Who Was Approached.

INFORMANT CONFIRMS IT

\$100,000 Spent by Chicago Lumber King to Elect Illinois Senator. Wanted His Money Back.

Springfield, Ill., April 6.—Edward Hines, the Chicago lumber king, was named as the man who put up the \$100,000 fund to secure the election of William Lorimer as United States senator from Illinois at the hearing of the senate investigating committee.

This statement was made by Clarence S. Funk, general manager of the International Harvester company, at Chicago. Funk said that Hines had come to him, asking him to contribute \$10,000 to the fund, and that Edward Tilden was the treasurer of the fund.

Herman Kohlsaat, editor of the Chicago Record-Herald, first testified that Funk had informed him that the fund was raised and that on this information he had printed his editorial. Funk had released him from secrecy and had accompanied him to Springfield.

Hines is a close friend of Lorimer and was one of the senator's most active lobbyists during the investigation at Washington resulting in the exoneration of Lorimer. Edward Tilden, whom Mr. Funk named as the treasurer of the \$100,000 fund, is accredited with speaking for the meat packers.

Hines Told of the Fund.

Mr. Funk testified that Mr. Hines had told him that \$100,000 was to be rushed to Springfield to secure the election of Lorimer, and that the International Harvester company was expected to be one of the ten "big people to make up the fund."

Mr. Funk said he refused to make the contribution, but was told to think the matter over and send the cash to Edward Tilden. Mr. Funk didn't know Mr. Tilden and it was not until he was summarily ordered to do so that he gave Mr. Tilden's name to the committee.

Mr. Funk testified that he refused to secure a contribution to the \$100,000 fund, telling Hines that his company was not in that kind of business.

"What did you tell Mr. Hines when he approached you?" Funk was asked. "I asked him why he came to me," replied Funk.

"You are just as much interested in having the right kind of a man at Washington as we are," Hines said. "I told him we wouldn't have anything to do with the matter; that we were not in that kind of business. I asked him how much he was getting from the different people. He told me it would be necessary to get the money from a few big concerns."

"If ten of them will put up \$10,000 apiece that will be enough," Hines said.

Funk then related that several days following this conversation with Mr. Hines he told the incident to Cyrus McCormick, president of the International Harvester company, repeating briefly the substance of Hines' statement.

"Mr. McCormick asked me what I did, and I told him I refused to consider the proposition," Funk said. "He replied, 'Good. I'm glad you turned him down promptly.' Mr. McCormick seemed very much chagrined to think that his company should have been approached in such a manner and for such a purpose."

A NEW DEATH DEALING DEVICE

Projectile Designed For Use in Aerial Warfare.

WILL DESTROY AIRSHIPS

Shell is Equipped With Highly Sensitive Fuse and Explodes Upon Impact With Aeroplane or Gas Bag.

Washington, April 6.—A new death dealing device for use in aerial warfare has been patented by the Krupps, the well known German manufacturers.

This consists of a highly sensitive fuse, which insures the explosion of a projectile upon impact with the delicate resistance afforded by the gas bag of a balloon or the light canvas covering of an aeroplane.

Up to this time the explosion of such projectiles in aerial warfare practice has been dependent altogether upon time fuses, but the Krupps, by their latest invention, have eliminated the large elements of uncertainty in this method and have added a weapon which will be an important factor in the aerial warfare of the future.

Letters patent have just been issued for this latest of modern war devices. The new fuse, while being susceptible to the most delicate impact, is safeguarded by an intricate mechanism against the resistance offered by the air in its lightning-like flight.

The fuse has a base plug containing a pellet of fulminated mercury, which, when ignited, sets off the explosive charge of the projectile. The fulminate is ignited by a spring, which is controlled by two levers. These levers are normally held against swinging by a movable shaft, which is made of wood—for lightness. When the head of the projectile strikes a surface as delicate even as that of the yielding silk of a balloon or the most fragile part of an aeroplane, the levers are released and swing outward under centrifugal force, permitting the ignition needle to be driven by its spring into the fulminate.

The mechanism is controlled against the resistance of the air by another device, which is, however, susceptible to the least impact beyond that encountered by the atmosphere.

With the development of the possibilities of aerial warfare, ordnance experts of nearly every country have been working for several years on offensive devices to destroy aerial craft.

Inventions along these lines have developed field guns having large angles of elevation, even upright, and having mounts designed to permit horizontal training from a circular path, with the rear of the carriage as a center.

ATTACKS THE PRESIDENT

Socialist Congressman Would Withdraw the Troops.

Washington, April 6.—The Social Democratic party rose "as one man" in the house and hurled a thunderbolt at President Taft for his military policy in dealing with the Mexican situation.

In a joint resolution introduced by Representative Victor Berger, of Milwaukee, the sole Social Democrat in the house, the traditional policy of the United States is declared to be in sympathy with the people struggling for their liberty and the Diaz government is characterized as one of "brutality and despotism."

The resolution demands the immediate withdrawal of the United States military forces from the border and a firm adherence in future to neutrality.

CURE FOR MONEY LUST

Study of Greek Will Divert Young From Passion For Money.

Ithaca, N. Y., April 6.—The study of Greek in the public schools would divert the young from the passion of money-getting.

This is what Dr. Lewis L. Forman, for twenty years a teacher of Greek at Cornell university, declared when he asked the local board of education to have Greek restored to the high school curriculum.

He was asked if he thought the school board should devote one room and one teacher for perhaps one pupil who might study Greek. He replied in the affirmative, saying that the pupil would be "given a chance in this democracy to do his best."

President Williams, of the board, told Mr. Forman that the schools had received but one application for Greek in three years. The doctor's appeal was futile.

CLARK'S INNOVATION

"The Chaplain Will Lead Us in Prayer," He Says.

Washington, April 6.—Speaker Clark broke a precedent at the opening of the house.

It has been the custom for the presiding officer to say, when the house meets, "The house will be in order. The chaplain will offer prayer." But Mr. Clark announced in loud tones, "The chaplain will lead us in prayer."

"And the lord only knows we will need it before this session is over," audibly commented an impious Republican.

POLICE SPOIL TRIPLE ELOPEMENT

Three Couples Are Under Arrest at York.

York, Pa., April 6.—Three men and three women, who had eloped from their homes in the vicinity of Alexandria, Va., were taken into custody here by the York police.

The genuine husbands have been notified and are expected to prefer charges against the men who stole away their wives. The women are very attractive, and all of them left good homes, one deserting her husband and five little children.

The prisoners are Mrs. William Powers, Mrs. Samuel Harrington, Mrs. J. H. Crawley, Eugene Crawley, Patrick Woodward and Forest Oehlert. The triple elopement is admitted by the prisoners, the women declaring they had become tired of their monotonous life in Virginia and intended to travel for awhile about the country and eventually go upon the stage.

NAMED BY THE PRESIDENT

Drug Examiner in Philadelphia and Several Postmasters.

Washington, April 6.—The president sent to the senate the nomination of Frederick W. Heyl, of Philadelphia, to be special examiner of drugs, medicines and chemicals in that city.

The following are appointed postmasters in Pennsylvania: Isaac N. Lightner, Ephrata; Mary J. Ensign, Ardmore; Daniel J. Genseuer, Pine Grove; Charles L. Ferrabee, St. Clair; Benjamin Apple, Sunbury.

Louis Schwab is appointed assistant surgeon in the public health and marine hospital service, Pennsylvania, and Charles A. Kram, auditor for the postoffice department in that state.

Scandal Mongers Broke Her Heart.

Marion, O., April 6.—Mrs. Louise Bonner, forty-seven years old, widow of Dr. Harry L. Bonner, died suddenly of organic heart disease. Her physician, Dr. F. Young, declares reports spread by scandal mongers that she was to be married so soon after her husband's death brought on the fatal attack. These reports so preyed on her mind that her heart "broke" under the mental strain.

Pardon Decision This Week.

Washington, April 6.—It is expected that President Taft will officially announce his decision in the Walsh and Morse pardon cases before the end of this week. The president told visitors at the White House that he had reviewed both cases and was now awaiting a favorable opportunity to prepare his conclusions.

TROOPS MOBILIZED AS A WARNING?

Japan Sought a Coaling Station in Mexico.

El Paso, Tex., April 6.—From a man who is in very close touch with the Mexican foreign office it is learned here that the real reason for sending American troops to the border was as a caution to both Japan and Mexico, regardless of denials.

It has finally become known definitely that United States troops were sent to Texas because of pressure that was being brought to bear on Mexico by Japan for a coaling station.

It is stated that Japan insisted that Mexico must grant a coaling station to that country if it permitted the United States to continue in Magdalena Bay, and that Mexico was forced to withdraw the United States concession.

Following this, Japan began using pressure, it is said, against Mexico for the coaling station anyhow, and the troops were sent as a warning to both Japan and Mexico.

Francisco I. Madero, Sr., and his party of peace envoys are still waiting in El Paso before setting out for the camp of Francisco I. Madero, Jr., and his insurgents in the field west of Chihuahua. The senior Madero is awaiting advices from Jose Yves Limantour, it is stated. All details have been concluded for his safe transport through Chihuahua to his son's camp.

Bill to Neutralize Philippine Islands. Washington, April 6. -- Representative Cox, of Ohio, introduced a resolution calling on President Taft to furnish congress with information showing the entire cost to date of the occupation of the Philippines by the United States. Mr. Cox declared that the islands are a burden and that in case of a war this country would be humiliated by losing them. He intends to urge a treaty neutralizing the islands, placing them in the control of Great Britain, Japan and the United States.

HUNTERS' FEE BILL IS URGED

Friends of Measure Asked to Press Its Passage

WOULD BENEFIT WHOLE STATE

Bill Provides For Annual Payment of \$1 by Resident Hunters as License Fee--Much Good Can Be Done With Revenue So Derived--Legislature Will Soon Decide Fate of Measure. Now Before Senate.

Intense interest, state-wide in its scope, is being aroused in the Resident Hunters' License Bill, which has just been favorably reported to the Senate at Harrisburg. The measure is now before the Senate for consideration and the fate of the bill will be decided within a week.

Senators and Representatives are favorable to the bill, though some are still awaiting the final word from their constituents. Expressions of opinion are being eagerly sought at Harrisburg and a committee of citizens urging the passage of the bill have been instructed to advise all voters in the state to make their wishes known to their representatives.

In the canvass already made not one voter in 500 has opposed the bill and in nearly every instance its provisions have been received with enthusiasm.

The bill provides for the payment of \$1 per year as a license fee by all resident hunters. Land owners and bona fide tenants and their children, hunting on their own or rented lands, are exempt. Fifty per cent of the revenue so derived will be used in payment of bounties for the destruction of weasels, mink, hawks and vermin that destroy song birds and insectivorous birds and poultry.

It is estimated that the amount thus to be distributed in bounties will be about \$75,000 per year. Unless this bill passes there will be no bounty provided for the next two years, as the state has refused to appropriate any more money for that purpose.

The remaining 50 per cent of the revenue raised will be applied to the protection, propagation and distribution of game under the supervision of the state game commission.

At present the appropriation available to the game commission amounts to only \$20,000 per year. This meager amount must be applied to protect over 28,000,000 acres and as the pending measure will provide a revenue of \$150,000 to \$200,000 per year the game commission will develop into a useful and highly valuable branch of state government.

While residents of the large cities have been slow to realize the fact, those who dwell in the suburban and country districts have been quick to realize that the proposed bill if passed will increase all bird and game life within the state. The payment of the small annual fee of \$1 by those who love the recreation of hunting will double and treble the number of birds and game throughout the state and mean a large increase in food supply. It will make possible a good day's shooting to the man with limited time and means without the expense of long trips. It will undoubtedly soon bring about a longer open season and more liberal daily allowances per gun of game taken.

Friends of the bill promise that it would soon bring about a friendly co-operation between the paid game warden and the forester of the forestry department that will largely decrease losses from forest fires and promote the betterment of game conditions throughout the state.

As important as all other conditions, the additional bounty provided for the destruction of vermin and pests will save the farmers additional thousands yearly.

A peculiar feature in connection with the bill is the fact that hunters themselves are asking the privilege of paying the tax that will insure these benefits. The committee having the bill in charge are all men who love hunting as a pastime. The committee consists of: Edwin K. Morse, chairman, Pittsburg; John M. Phillips, Carick; Charles A. Painter, Pittsburg; R. R. Bennett, Pittsburg; H. F. Ward, Washington, Pa., and Thomas Leggett, Pittsburg.

There is, admittedly, no state in the Union with better opportunity for the development of game and bird life and magnificent and highly valuable forest resources than Pennsylvania. Wanton destruction of animal life by irresponsible persons is causing irreparable damage to the underserving and the proposed act is regarded by all fair hunters as a modest but legitimate tax for providing a fund that will forever safeguard the state in Harrisburg it is recognized as the most unselfish act ever urged before the legislature.

The committee urges all interested in game and forest protection to communicate at once with their representatives in Harrisburg and urge the passage of this measure. State representatives and senators are anxiously awaiting the voice of the people and it should make itself heard in unmistakable terms. The senate will take first action upon the bill and it is imperative that the public will be registered at once.

MAKE LIFE WORTH LIVING

Says Elder Cunningham.

When pure healthy blood courses through every vein and artery of the body, the organs are in a healthy condition, and a strenuous active life is a pleasure to man or woman.

But if the blood is impure and sluggish, the appetite poor, digestion weak and vitality not up to the standard, life is a burden; then you need Vinol, our delicious cod liver and iron tonic, without oil. Such evidence as comes from Henry Cunningham, elder of the Baptist Church, Kingston, N.C., should be convincing. He says: "I was run-down and weak from general debility, and suffered from vertigo. I took Vinol with the most gratifying results. I gained in health and strength and now feel unusually well."

Elder Cunningham's recovery was due to the combined action of the medicinal elements of cod's livers, aided by the blood making and strength creating properties of tonic iron contained in Vinol.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. People's Drug Store, C. Wm. Beales, proprietor, Gettysburg, Pa.
